

AMTICO
DESIGN TILE

ACCESS

PRODUCT USED: FROSTED OAK

Amtico Access is a stylish, loose lay vinyl flooring collection.

Incredibly well suited to retail, office and hospitality environments where rapid installation is required, Amtico Access can be combined or used individually to create contemporary floor designs.

An intelligently balanced mix of 43 elegant and modern wood, stone and abstract designs, Amtico Access is a collection that brings beautiful, versatile aesthetics to practical flooring that performs.

Amtico Access can be installed efficiently without permanent adhesives and specified as part of integrated schemes for demanding commercial projects. Delivering excellent acoustic benefits, the collection features 5.0 mm gauge planks and tiles with an ultra-strong 0.55 mm wear layer in a usable spectrum of light reflectance values. Amtico Access can be laid on subfloors, including raised access installations, and is easily maintained.

Built to cope with busy commercial environments, a 10 year warranty demonstrates our confidence in your choice of flooring.

PRODUCT USED: SUN BLEACHED OAK

MEDIA BRANDS

Location: London, UK

Products: SX5W2531 Sun Bleached Oak

Media Brands is a global company that provides innovative media solutions for its clients. The agency based in London underwent a complete re-fit across all of its floors. The project specifically required a vinyl flooring product which was on trend and that had a creative and unique offering.

In a busy office wires and cabling need to be reached. Amtico Access was chosen for this reason as tiles are secured with a tackifier, which means that they are loose laid to offer accessibility once fitted.

Designer Hila Yonas explained:

"Being a creative agency we wanted a product that could offer more than the norm. We already knew of Amtico's great reputation but we were completely sold on the products once we saw the innovative designs at the Clerkenwell design show."

NORTH HERTFORDSHIRE COLLEGE

Location: North Hertfordshire, UK
Products: SX5W2516 Bleached Elm

A further education college turned to Amtico International when replacing its worn out carpet, opting for a more durable alternative. North Hertfordshire College's 700 sq metre upgrade saw the installation of the Amtico Access range throughout the atrium of its Stevenage site. The area comprises a 100 seater canteen, recreation area and learning resource centre.

The college's suspended flooring required a range that could not only withstand the high footfall of students and would be simple to maintain, but one that would also be flexible enough to easily gain access to the underfloor utilities.

Head of Estates at North Hertfordshire College Brian Sapsed believes the contemporary finish enhances the professional image of the college. He said:
"We are very pleased with the wood effect flooring. The Bleached Elm creates a modern, airy look that is more conducive to learning. Contractors Contract Design Flooring (CDF) specified and fitted the Amtico Access flooring. Having worked with CDF on previous projects we have installed Amtico in various areas in our other four sites and have always found it to be very durable and retain its appearance. The Amtico Access range has enabled us to replicate these benefits and also reduce our maintenance cost."

PRODUCT USED: BLEACHED ELM

WOOD

SHADOW OAK

Dark and brooding, this is a design with impact. A stylish twist on a standard wood grain, Shadow Oak brings sophistication and mood to a space.

SIMPLE BEECH

A smooth, contemporary wood, Simple Beech is the perfect choice for creating open, light spaces, small or large.

SUN BLEACHED OAK

Rustic, contemporary and supremely stylish, the distressed, natural grey of Sun Bleached Oak can transform any space.

DUSKY WALNUT

Featuring a sweeping grey linear grain, Dusky Walnut can transform any space into something beautiful and elegant.

EXOTIC WALNUT + RIVERSTONE TUNDRA

Rich, warm Exotic Walnut planks add depth and character to a quirky workspace. Balanced by a field of Riverstone Tundra soft, neutral tiles, Amtico Access adds impact through simple floor design to offices and commercial spaces alike.

STONE

CERAMIC NEUTRAL

Ceramic Neutral combines soft natural tones with a subtle ceramic feel to create a calm backdrop for any contemporary space.

VERTEX CLOUD

Diffused, multi-directional lines give this standout product its cool looks. Blending pale greys and soft neutrals makes this an incredibly versatile product.

MIRUS HENNA

ABSTRACT

Sweeping vertical colour gradients - an aubergine base with browns, pale greys and hints of lilac, creates a contemporary abstract aesthetic. Workable individually or use in combination for dramatic effect.

URBAN LINE STONE

Stylised linear design in a palette of light grey hues, with a fine textile texture.

EQUATOR WAVE + ORGANZA WEAVE

Evoke a luxurious mood with painterly abstract designs from Amtico Access. Intersecting stepped zones, in two of Amtico's most unique designs, make a beautiful statement in a retail space. Equator Wave and Organza Weave are versatile, visually sophisticated and robust – loose lay flooring at its best.

CIRRUS AIR + SATIN WEAVE

Cirrus Air and Satin Weave create a beautiful contrast across a working space. By randomly joining planks and tiles, in a contemporary monochrome look, Amtico Access delivers a new look in loose lay floor design.

TECHNICAL SPECIFICATION

The floor covering selected belongs to the Amtico Design Tile family of luxury vinyl tiles (LVT), manufactured from several layers that have been laminated together, and commonly incorporating a printed film design layer. Products are supplied with bevelled edges. Tiles should be installed using Amtico adhesives.

Phthalate Free		 Amtico Access products are manufactured using phthalate free plasticizers except for recycled content.	

BREEAM®

Amtico Access products correspond to the BRE Global Green Guide online generic specification for printed laminate polyvinyl chloride floor coverings which achieves a summary rating of A+ when used in healthcare, retail and education, and an A in commercial and residential building types.

AREAS OF USE

Amtico Access is an excellent product solution for Office, Retail and Hospitality & Leisure sectors. It is particularly suitable for use in temporary installations such as short-term retail leases or where tiles may need to be removed to allow access to floor panels.

Amtico Access is recommended for use over properly prepared concrete, suspended wood, raised access floors, metal and other suitable substrates.

This product should not be installed in unheated rooms or exterior locations.

INSTALLATION

Installation must be carried out in accordance with the requirements of the relevant national standard and the Amtico products technical information – the latest information is available at www.amtico.com. The surface must be flat, smooth, dry and fit for purpose. Levelling compounds should be used as recommended. Tiles and subfloor must be allowed to stabilize to a constant temperature between 18°C and 27°C for a period of 24 hours prior to, during and 24 hours after installation. Underfloor heating must be switched off for 48 hours before, during and 48 hours after installation. The tiles should be stored flat. Amtico International Tackifier is recommended for installing Amtico Access tiles. In areas subject to potentially large changes in temperature, for example floors exposed to direct sunlight, or areas with underfloor heating, it is recommended that Amtico International HT Adhesive or Universal 2-Part Adhesive is used to install tiles according to subfloor type.

Tessellation (quarter turn) is required for all Vertex designs.

MAINTENANCE

Maintenance should be carried out in accordance with the recommendations of the Amtico products technical information – the latest information is available at www.amtico.com. The urethane surface treatment facilitates the removal of scuff marks. Cleaning products and entrance matting designed for use with Amtico products are available from Amtico International. Maintenance should involve simple dust mopping, wet mopping, spray cleaning or scrubber-drying with a neutral detergent. The application of a floor dressing is not necessary, although this can be carried out to provide additional protection if desired.

For the latest installation and maintenance information please visit www.amtico.com

Visit amtico.com for more information on our product range, inspiring ideas, maintenance and installation advice.

Every effort is made to achieve accurate reproduction of products in this brochure, however printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They give only a general indication of the design. Tone and shading can vary slightly from batch to batch and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification. All metric sizes are rounded. All products are manufactured in line with EN649/ISO10582.

ENTRYWAY

Make the right first impression with Amtico Entryway matting.

All of the designs in this collection – Ruffian, Recoarse and Take Back – feature type 6,6 nylon and scraper fibres. This unique combination works together to remove soil, moisture and debris at the door, preserving the look and appearance of flooring throughout your building. Choose from a range of colours, designs and textures which are practical yet stylish and perfect for protecting and complementing your Amtico flooring.
