Defined

amtico
signature

Amtico has been pioneering creative and exciting possibilities in flooring design for over 50 years.

Close collaboration between our designers, manufacturers and technologists has always been at the heart of everything we do. It has fuelled the design creativity and product innovation that sets our floors apart.

We've played with the scale and colour of Victorian-inspired patterns to develop stylish, contemporary versions for commercial installations.

Sarah Escott
Design Manager

"With Designers' Choice, the design team have experimented with textures, tones and palettes to create a sophisticated, surprising and ready-to-use collection."
