

GraphElite - 'Diamond' LED 24v Low Voltage Edge Lit Light Boxes

A new, 19mm deep, super slim aluminium snap frame profile. Embellished with a tiny rounded chrome corner piece for styling and extra safety, plus energy saving electronics all combine to make this a truly attractive and versatile light box.

By using highly reliable super bright LED's as the main lighting source, the 'Diamond' light box provides substantial energy cost savings of up to 80% compared to fluorescent light boxes, the 'Diamond' is an attractive choice for environmental savings & energy reduction objectives.

Available in standard 'A' sizes **A4 - AO** single sided for interior use only. Bespoke sizes available for quantities.
