

SJX Fully Upholstered
Product Data Sheet

SJX Fully Upholstered Product Data Sheet

Designed to conform to:

BS EN 15373: 2007 – Strength, durability and safety for Non-Domestic Seating
EN 1728: 2000 – Static load & fatigue test
EN 13761: 2002 – Dimensions

Manufactured in accordance to:

ISO 14001: 2004 - Environmental Management Systems.
BS EN ISO 9001: 2008 - Quality Management Systems.

Materials:

Seat and back produced from Polypropylene for strength and durability. These also provide a 'wipe-down' surface. Tubular Steel framework is 25mm diameter, 1.5mm thick and is designed to conform to UNI 10305-3: 2003. These epoxy powder coated or chromium plated to match other metalwork items.

Arms are produced in Polypropylene to match the seat and back pans. Seat and back pans can be fitted with optional upholstered panels, which have CMHR (combustion modified high resilient) foam pads covered with fabric.

Heritage:

Over thirty years of in-house manufacturing experience of this type of furniture supplied successfully into educational establishments throughout the U.K

Considerations:

- Available in a selection of seat and back colours.
- Available with plain plastic, upholstered or mesh back options.
- Available with plain plastic or upholstered seat options.
