Product Data Sheet

Motive Product Data Sheet

**Seating (Standard) Tested and certified to:**

BS EN 16139: 2013 - Strength, durability and safety for Non-Domestic seating.
BS EN 1022: 2005 - Domestic furniture. Seating.
Determination of stability.

Manufactured in accordance to:

ISO 14001: 2004 - Environmental Management Systems.
BS EN ISO 9001: 2008 - Quality Management Systems.

Materials:

The framework is produced from wood-based sheet materials for strength and stability, and to form the smooth shapes. This frame is then covered with CMHR (Combustion Modified High Resilience) flexible foam for comfort and complying with flammability 'Crib 5' requirements.

Upholstery fabrics for seat and back pads are available in a wide range of patterns, colours and weaves. They are produced and supplied at a minimum of 'Crib 5' flame retardancy level; suitable for contract use in public areas.

Legs are produced from a combination of formed steel tube and plate which is welded and then polished with a chromium finish.

Heritage:

Over thirty years of in-house manufacturing experience of this type of furniture supplied successfully into educational establishments throughout the U.K.

Considerations:

- Available in a selection of fabric textures and colour ways for choice – including panels which can be coloured to complement the rest of the unit.
- Produced with a raised seat to provide clear air circulation in the room into which it is installed and to aid cleaning.
- Non-removable seating cushion to prevent theft
- Smooth upholstery lines to promote longevity of use and reduce wear
