

NEOLITH

New Products 2016

Nature and Technology: A closer relationship than ever...

If 2015 proved decisive for Neolith's chromatic repertoire, 2016 arrives full of important news hitherto unprecedented.

During the past months, TheSize's team has worked very hard to give life to new fascinating designs, surprising textures and immaculate finishes ... all that with one aim: **To seduce you!**

Inspired by the power and beauty of various natural elements, TheSize acquired the latest technology available in the market and made use of new decorative techniques in order to introduce **6 décors**, across five different collections, that are highlighted by its rich details and degree of realism.

Thus, once again TheSize strengthens its unceasing commitment to continue innovating; continue satisfying an increasingly demanding yet appreciative public; continue growing in a sustainable and environmentally respectful way; continue introducing reference products to the architecture and interior design world.

Proof of that dedication and desire to excel are the prizes that Neolith has been internationally awarded with in recent months: **Red Dot Award 2015** and **2015 MIAW Award** for "Best Product Design"; **K + BB Reader's Choice** for best product in the categories of "Kitchen Countertops", "Kitchen Flooring " and "Bathroom Flooring," amongst others.

Thank you for your trust and support. From TheSize we will keep working and innovating to make our dreams a reality.

Naturaleza y Tecnología: Una relación más estrecha que nunca...

Si el 2015 resultó ser determinante para el repertorio cromático de Neolith, el 2016 irrumpe cargado de impactantes novedades hasta ahora sin precedentes.

*Durante estos últimos meses, el equipo de TheSize se ha volcado en dar vida a nuevos diseños fascinantes, texturas sorprendentes, y acabados inmaculados... todo ello con un único objetivo: **Seducirte!***

*Inspirándose en la fuerza y belleza de distintos elementos de la naturaleza, dotándose de los últimos avances tecnológicos disponibles en el mercado y experimentando con nuevas técnicas decorativas, TheSize presenta **6 modelos**, repartidos en 5 colecciones, que destacan por su riqueza de detalles y su grado de realismo.*

De esta forma, un año más TheSize reitera su incesable compromiso por seguir innovando; seguir satisfaciendo a un público cada día más exigente y a la vez agradecido; seguir creciendo de una forma sostenible y respetuosa con el medio ambiente; seguir lanzando productos referentes en el mundo de la arquitectura e interiorismo.

*Prueba de dicha dedicación y afán de superación son los premios con los que Neolith ha sido galardonado internacionalmente en los últimos meses: **Red Dot Award 2015** y **MIAW Award 2015** por "Mejor Diseño de Producto"; **K+BB Reader's Choice** como mejor producto en las categorías de "Encimeras de Cocina", "Pavimentos para Cocinas" y "Pavimentos para Baños" entre otros.*

Gracias por vuestra confianza y apoyo. En TheSize seguiremos trabajando e innovando para hacer de nuestros sueños una realidad.

finishes available (mm)

satin silk riverwashed polished

formats available (mm)

3.200 x 1.500

Inspired by Silver Travertine marble, TheSize introduces Strata Argentum model. A finely horizontally grained décor, in light grey shades, which reproduces the different layers of this trendy italian marble.

Available in Riverwashed finish, it replicates the original texture of the natural stone its rawest state.

Inspirado en el mármol Silver Travertine, se presenta Strata Argentum. Un modelo finamente veteado en sentido horizontal, en tonalidades grises claras, que reproduce los distintos estratos de este mármol italiano en creciente tendencia.

Disponible en acabado Riverwashed, replica la textura original de la piedra en su estado más puro.

▼ CALACATTA GOLD

formats available (mm)

3.200 x 1.500

Following the success of Calacatta - winner of the Red Dot Award: Product Design 2015 and Muuz International Awards 2015 (MIAW) -, TheSize developed Calacatta Gold, an elegant gold-veined surface that is in line with the return of the golden trend for bold and luxurious interior designs. Just as with Neolith Calacatta, the new model will be able to be bookmatched and available in 6 and 12 mm thickness in Polished and Silk finish.

Tras el éxito del Calacatta - ganador del Red Dot Award y Muuz International Awards 2015 - TheSize presenta Calacatta Gold, caracterizado por una malla grisácea con luminosas vetas doradas, ideal para los espacios más exclusivos. Calacatta Gold también permite crear efecto espejo (Bookmatched) y está disponible en 6 y 12 mm; en acabado Silk y Polished.

In the Timber Collection, TheSize is introducing the first wood décor manufactured in 12mm thickness, La Bohème, ideal for worktop applications and kitchen islands. Inspired by the trunk of a Lebanese Cedar, this new design stands out from the collection with its bold grain and raw wooden colour that can be appreciated by sight and touch thanks to the texture achieved by NDD technology (Neolith Digital Design).

A la colección de maderas Timber se añade el primer modelo de madera fabricada en 12 mm de espesor: La Bohème.

Inspirado en el tronco del cedro libanés, La Bohème destaca por su juego de nudos robustos y marcadas líneas que aportan movimiento y profundidad. Una fiel interpretación de esta noble madera, tanto a la vista como al tacto, por la textura real que se consigue gracias a la tecnología NDD (Neolith Digital Design).

▶ LA BOHÈME B02

TIMBER
NEOLITH

The B02 version of La Bohème is presented with a set of lines and knots in a more subtle and homogeneous way than the B01 version of this décor. Bohemian, rustic, Provençal and rough looking, La Bohème B02 can be used for both kitchen tops and islands as well as for cladding and flooring.

Striking and strong, both versions of La Bohème respond to the latest trends in design without compromising the durability of the surface.

La versión B02 de La Bohème se presenta con un conjunto de líneas y nudos más sutiles y homogéneos que la versión B01 de este modelo. De aspecto bohemio, rústico, provenzal y tosco, La Bohème B02 permite ser utilizado tanto para encimeras e islas de cocina como para revestimientos y pavimentos.

Llamativas y resistentes, ambas versiones de La Bohème dan respuesta a las últimas tendencias de diseño sin comprometer en ningún momento la durabilidad de la superficie.

3.200 x 1.500 3.600 x 1.200

Iron Frost is introduced to the Iron Collection as a neutral and minimalist design which is distinguishable by its delicate notes of metallic sheen on a white background with light grey shades, bringing light to the piece.

With this new model, the Iron Collection offers 7 different modern and eye-catching designs.

Iron Frost se incorpora a la colección Iron como un diseño minimalista y neutro que se distingue por sus delicadas pinceladas de brillo metalizado, sobre un fondo blanco con aguas grises claras, aportando luminosidad a la pieza.

Con este nuevo modelo, la colección Iron dispone de 7 diseños distintos, modernos y llamativos.

Aligning itself with the latest market trends for industrial looks in interiors, TheSize introduces **Steel Marengo** in a brand new collection: **Steel Collection**. With a dark grey-tone similar to Pietra di Piombo, Steel Marengo is the perfect alternative to stainless steel, as it combines the metallic feel and reflection throughout the slab with the inherent high-tech properties of Sintered Compact Surfaces.

*TheSize incorpora el modelo **Steel Marengo** a una nueva colección: **Steel**, la colección de Neolith inspirada en el acero inoxidable.*

Con un tono gris similar al Pietra di Piombo, Steel Marengo combina un reflejo metálico y efecto similar al acero con las características propias de las Superficies Compactas Sinterizadas. Steel Marengo es la alternativa ideal al acero inoxidable.

Pierre Bleue is a reinterpretation of a Neolith classic: Belgian Blue. Inspired by the natural stone known as "le Petit Granit", the décor is the result of employing the latest techniques in Neolith Full Body and NDD technologies. Integrating numerous rock elements through the entire grey-blue body, Pierre Bleue stands out for its high degree of definition and realism, and is available in 6 and 12mm.

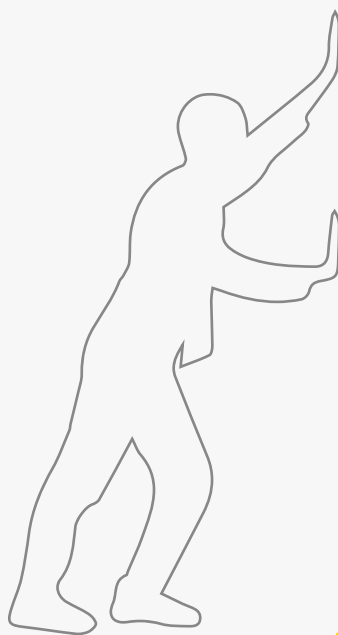

Pierre Bleue es una reinterpretación del clásico de Neolith, Belgian Blue. Inspirado en la piedra natural conocida como Le Petit Granit, este modelo es el resultado de las técnicas más avanzadas empleadas con las tecnologías NDD y Full Body de Neolith. Integrando numerosos elementos rocosos a través de toda su masa azul-gris oscura, Pierre Bleue resalta por su alta definición y grado de realismo; disponible en 6 y 12mm.

THICKNESSES | ESPESORES

▶ THICKNESSES | *ESPESORES*

▼ The thickness is one of the most important elements characterizing **Neolith**. They range from 3 to 12 mm, and they determine the possible applications given to Neolith slabs. 3 mm can be used for interior cladding or furniture; 6 mm for both indoor and outdoor flooring and exterior cladding (ventilated façades); 12 mm is set aside for the most demanding product applications such as kitchen countertops.

*El espesor es uno de los elementos más importantes que caracterizan a **Neolith**. Desde los 3 hasta los 12mm, cada espesor determina los posibles usos de Neolith en distintas aplicaciones. 3 mm puede usarse para revestimientos interiores o mobiliario; 6 mm para pavimentos, tanto interiores como exteriores y revestimientos exteriores (fachadas ventiladas); 12 mm se reserva para las aplicaciones más exigentes del producto como pueden ser las encimeras de cocina.*

FINISHES | ACABADOS

FINISHES | ACABADOS

Phedra Satin

Satin

Completely matte finish. **Highly resistant** and ideal for commercial applications.

*Acabado completamente mate. **Altamente resistente** e ideal para aplicaciones comerciales.*

Beton Silk

Silk

Matte finish with a thin layer of glaze that provides a **subtle shine** and a nice **soft touch**. Surface finish that results extremely **easy to clean**.

*Acabado mate con una ligera capa de esmalte que aporta un **brillo sutil** y una agradable **suavidad al tacto**. Acabado superficial que resulta de **fácil limpieza**.*

* Consultar recomendaciones de uso.

FINISHES | ACABADOS

FINISHES | ACABADOS

Special Treatments on Demand | *Tratamientos Especiales bajo Demanda*

The Natural Honed effect is attained by applying a special treatment on the Neolith surface to achieve a honed texture typical of natural stones: flat, soft, without any glossiness and completely matt.

Applying Natural Honed to a décor with a Satin finish increases the softness of the surface; whilst application to a décor with a Silk finish has the effect of decreasing the light that reflects off the surface thereby ensuring the surface maintains its soft and silky aesthetic.

The Natural Honed effect reinforces TheSize's dedication to providing surfacing solutions that meet the highest expectations of both clients and industry professionals.

*El efecto **Natural Honed** se consigue aplicando un tratamiento especial a la superficie Neolith para obtener una textura apomazada típica de las piedras naturales: lisa, suave, sin brillo y completamente mate.*

En el caso de aplicarse en modelos con acabado Satin, el efecto natural honed aumenta el grado de suavidad al tacto. En el caso de aplicarse en modelos con acabado Silk se reduce completamente el ligero grado de brillo/reflejo superficial.

Con el efecto Natural Honed, TheSize reitera su dedicación a la hora de aportar soluciones que cumplan con las expectativas de sus clientes y profesionales de la industria.

Antislip: Surface treatment to achieve a non-sliding finish Class 2 or Class 3

Antideslizante: Tratamiento superficial para conseguir un acabado no resbaladizo de Clase 2 o Clase 3

FULL BODY

▶ FULL BODY

TheSize's newest techniques in Full Body and NDD technologies enable architects and designers to create bespoke artworks while ensuring the continuity and visibility of the superficial pattern and elements **also through the entire edge of Sintered Compact Surfaces, regardless of where the slab is cut.**

To further its offer, TheSize continues its investment in research and development and will be adding more colour choices in Full Body in the future.

*Los últimos desarrollos en las tecnologías de Full Body y NDD de Neolith, permiten al arquitecto y diseñador crear destacables obras asegurando la continuidad y visibilidad del diseño y elementos superficiales **a través de todo el canto de las Superficies Compactas Sinterizadas, independientemente de la ubicación del corte de la tabla.***

TheSize continúa con su labor de I+D+i con el fin de añadir en el futuro nuevos modelos con decoración a toda masa a su amplia gama cromática.
