## 'A' Boards and Pavement Signs - for exterior use

'A' Boards and Pavement signs need to be extremely tough and durable. Our range are manufactured from the highest quality aluminium to ensure a corrosion free life out doors. The double sided units have a 32mm snap frame on both sides for easy and quick poster changes. A range of styles and standard sizes make any one of these the perfect selection for advertising, promotional and information posters.

### Prase - Pavement & Forecourt Sign

## Poster Snap Frames - with easy front loading access

Poster snap frames are the best known product for the presentation of all types of information and advertising. We supply frames in aluminium ranging from as slim as 25mm for small size frames up to 42mm for very large posters. The snap opening fronts allow easy access so posters can be fitted or changed very quickly. All of our frames are manufactured using strong durable aluminium with a silver anodised finish but there is always a RAL colour option if you require it. All the popular standard 'A' poster sizes are available from A4 up to A0 direct from stock for next day delivery. Custom sizes take a day or two longer.

### 25mm Curved Aluminium Snap Frame

- 25mm curved frame style
- Silver anodised aluminum finish as standard
- RAL colours available even for singles
- Complete with anti glare poster protection sheet
- Single packed in boxes
- Available in all standard A sizes and custom made.

### 32mm Semi-curved Aluminium Snap Frame

- 32mm semi-curved frame style
- Silver anodised aluminum finish as standard
- RAL colours available even for singles

- Single packed in boxes
- Available in all standard A sizes and custom made.

## Vitincom Display & Poster Cases - for indoor use

This non illuminated product range offers a choice of exclusive styles. Truly French but unique and delightfully attractive and are at home in any location such as offices, marketing suites, restaurants and entertainment venues.

Vitincom products incorporate the following key features where applicable:-

- Wear resistant and warp proof integrated hinge.
- "Safety" lock manufactured exclusively for Vitincom with the latch outside.
- 100% of the display surface protected by the fixing lock on the aluminium frame and not the glass.
- Easy to use, press hinge doors to easily open them outwards.
- Door replaceable with the same model in case of damage or vandalism, without tools or removing case.
- Reversible door can be changed to left/right opening without tools or removing the case.

## Vitincom Outdoor Display Case - for outdoor use (with optional illumination)

An elegant contemporary design with radius corners.

### QUATRO post set

Two oblong and dovetailed aluminium posts 80 x 125, with black lacquered aluminium top caps. Each post supplied with 2 dovetailed cast aluminium clamps.
