

norament® 926 crossline

YOUR NEW PLAYGROUND

norament® 926 crossline plays with structure, colour and light.

nora®

All About Flooring. **All About You.**

norament® 926 crossline. The product.

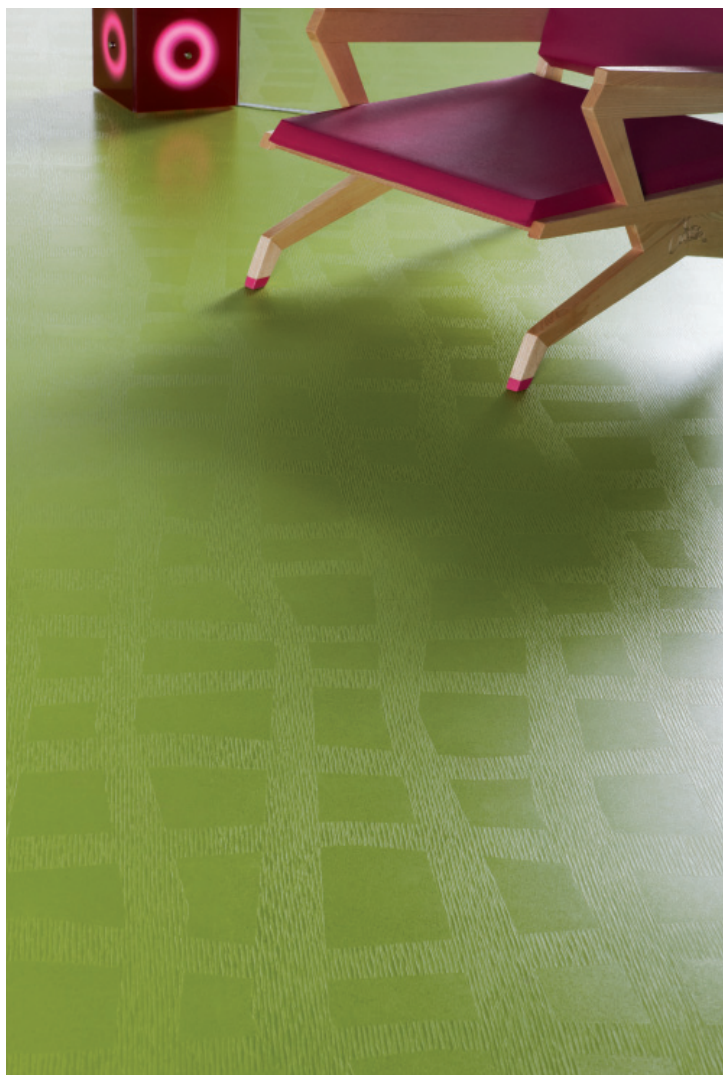

INSPIRATIONAL ENCOUNTERS IN THE THIRD DIMENSION

norament® 926 crossline is more than just a flooring, it is a vibrant, inspirational interplay of structure and colour, light and shade.

- The craftwork-like carving structure was developed by the internationally renowned designer Lars Contzen. It creates a rich spectrum with plays on light and shadow.
- The world of colour developed exclusively for nora systems joins up the colourcourage® concept by the designer Lars Contzen with the architecturally proven nora® colours. Systematic harmonies of colour interacting with products and materials inspire new and fascinating interior designs.
- norament® 926 crossline fulfils as a rubber floor covering the highest expectations and most exacting demands for safety, robustness and economic viability.

norament® 926 crossline. The effect.

DESIGN IN ITS MOST MULTI-FACETED FORM

The unique effect of norament® 926 crossline becomes apparent over areas. The fascinating interplay between the three-dimensional, craftwork-like carving structure and light subtly awakens rooms into life, without drawing the focus onto itself.

norament® 926 crossline always makes a different impression on its beholders – depending on their position and angle of view – time and time again.

The single colour of the flooring and the available range of exclusive designer colours offer a broad spectrum of creative and accentuating possibilities.

norament® 926 crossline. The details.

JUST AS SPECIAL AS YOU YOURSELF

norament® 926 crossline is the perfect flooring wherever areas are to be put in the spotlight. And also where exacting demands in terms of ergonomics, safety and environmental sustainability are made.

tone-setting:

The norament® 926 crossline range of colours.

Attention-grabbing and with an extremely aesthetic appearance, the world of colour of the norament 926 crossline is an effective instrument for giving rooms a totally new emphasis. Eight successful and architecturally leading colours from the norament® collection have been combined with eight colours from the colourcourage® colour system.

This system is based on colour harmonies. The interaction of the individual colours is characterised by an extremely aesthetic appearance. In developing the series of colours, the designer Lars Contzen has taken into consideration both the psychological aspects of colours as well as the zeitgeist of the culture of today. Rooms that have been designed on the basis of a colourcourage® colour harmony display coherence, conception and their own identity.

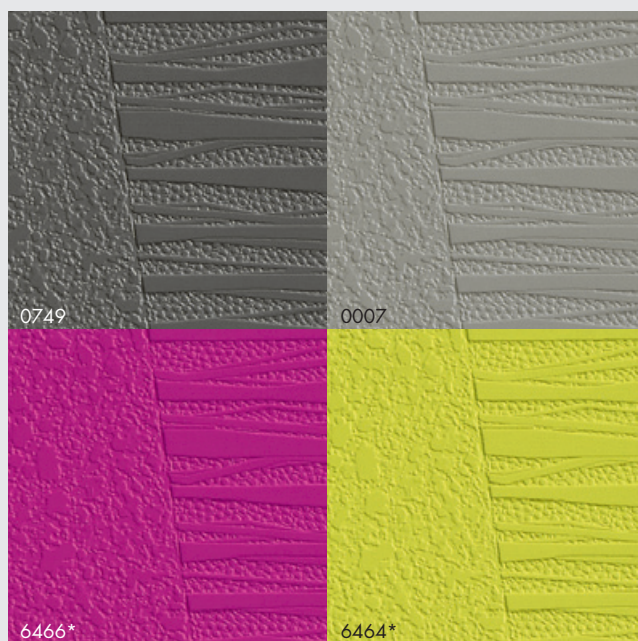

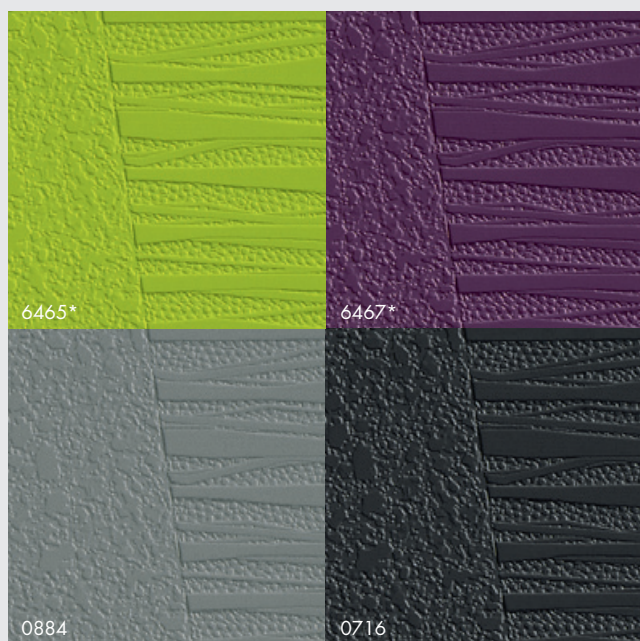

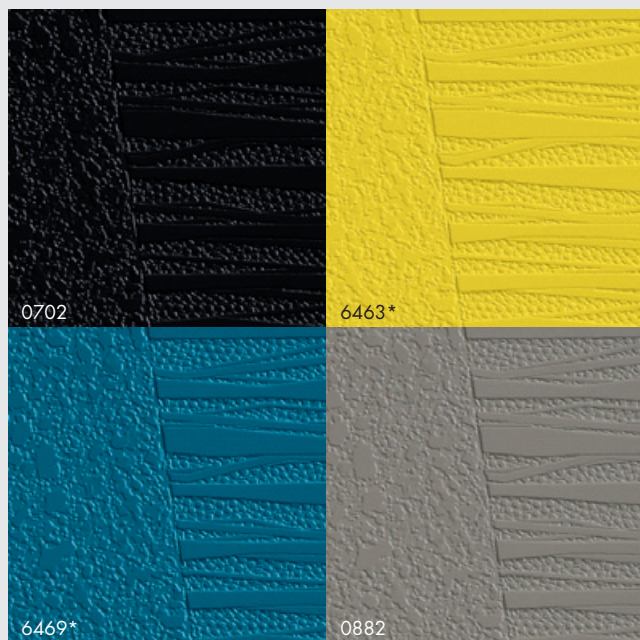

- 8 classic nora® colours
- 8 designer colours from the exclusive colour concept "colourcourage® – Systematic Colour Harmonies by Lars Contzen"

FUNCTIONAL:

Properties of nora® rubber floor coverings.

- Excellent fire safety characteristics
- Environmentally sound (Blue Angel), part of the nora system blue® concept
- Free of PVC, plasticizers (phthalate) and halogens (e. g. Chlor)
- Exceptionally hard-wearing
- The extremely dense and closed surface typical for nora® rubber floor coverings together with nora cleanguard® facilitates economic cleaning without the need for subsequent coatings.
- Dimensional stability, therefore no joint-sealing necessary
- Ergonomic: High walking and standing comfort
- Permanently resilient
- Anti-static
- Resistant to cigarette burns
- High footfall sound absorption
