

## Tom, Tom Dick and Harry Range, TOM

Tom, Dick and Harry are a natural collection, but also confident, independent pieces. The award-winning range has a progressive, gently angular design, all three chairs bearing subtle variations in shape and size to work together in the same environment or as three individual pieces. Suitable for use in reception, lounge and break-out environments, the design incorporates a moulded foam body with metal frame inserts. The slender profile of each piece does not compromise on comfort. There is a choice of aluminium feet or chromed skid base.
