Pod Meeting System

WORK PLACE

The Vista meeting system is the ideal accompaniment to any seating or table system from the Boss Design Group.

VISTA is a range of acoustic pods that create the perfect meeting room or office environment.

WORK SPACE

Vista provides an alternative to hiring meeting and conference rooms off-site.

Suitable for a wide range of locations, Vista is a contemporary and flexible alternative to fixed partitioning. Acoustically engineered, Vista provides complete privacy for the user.

The ultra-slim aluminium profile, curved corners and glass panels combine to create an elegant aesthetic, whilst the modular construction provides the utmost flexibility.

WORK LIFE

We understand that users have very different requirements for their meeting space.

Vista offers endless customisation opportunities to meet the individual needs of a client. Clear acrylic corners and fully upholstered acoustic panels are available in a variety of colours. Our upholstered panels can promote branding, key messages or graphics of your choice.

In addition to our standard offer, the modular design of Vista ensures that it is simple to deliver a bespoke solution to meet a client's specific requirements.

WORK
TOGETHER

WORK INTELLIGENT

Vista boasts an impressive 31dB rating for noise suppression and a privacy rating of 50dB (quiet office).

Glass panels
Our clear glass panels are certified to BS EN 12150 providing high levels of clarity, stability and enhanced acoustic performance.

Wall panels
Fully upholstered acoustic wall panels.

Ceiling
30mm high performance acoustic ceiling panels for increased acoustic insulation.

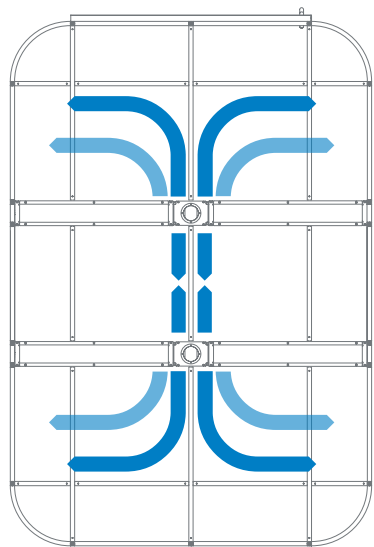

Extrusion
35mm slimline aluminium extrusion.

WORK FLOW

Increased air flow
enhances attention and
alertness of employees.

VISTA Air-Flow System

Air flow
The Vista air flow system
circulates 380m³ of air per
hour/105 litres per second.

Reduced noise
The air flow system used in
the Vista Pods has received
the Quiet Mark Award.

Technology

Designed to facilitate new ways of working in the modern office, Vista supports the latest technological advances with options to specify accompanying video conferencing packages through to room booking systems.

Room Booking System

Video Camera

Content can be received in up to 1080p60 quality, the ideal resolution for meeting rooms.

Control System

Kramer 8 button control system for automated control of all multimedia packages including video and audio components.

FEATURES

Standard Features

Glass Panels
Vista uses clear glass wall panels featuring 50mm diameter frosted vinyl manifestations at two heights in accordance with DDA regulations.

Doors
Sliding glass door with soft open and close on VIS1,2,3 and 4.

Sliding curved glass door on VIS 100

Power
Vista features 2 x Power and 2 x Data points per power arch.

Lighting

Ceiling Lights
VIS 100 features our standard energy efficient LED lighting system and automatic PIR motion sensor built into the ceiling with multi-directional light fittings that can be adjusted to the users requirements.

Power Arch Lights
VIS 1,2,3 and 4 feature our standard energy efficient LED lighting system and automatic PIR motion sensor within the power arch. There is a choice of 2, 4 or 6 lights per power arch with multi-directional light fittings that can be adjusted to the users requirements.

Accessories

Fitted Tables
A range of accessories are available including storage units, shelves, fitted poseur table, white board and Audio Visual screen brackets.

Unifi

Bespoke

We understand that clients have different requirements for their meeting spaces. Alongside our standard offer we also offer a bespoke service that provides support and project guidance to achieve the Vista solution that is suitable to your needs, ensuring maximum space utilisation.

Warranty

We warrant the original purchaser of a Vista pod system from the date of delivery.

A 5 year warranty covers all structural elements of Vista and is subject to normal conditions of use and care. This structural guarantee includes items such as: integral structural fixings, aluminium profile frame, toughened glass, ceiling construction and is only valid if the Vista pod has been assembled or re-assembled by a Boss Design approved installer, otherwise the warranty is invalid.

Vista offers a 2 year warranty on all moving parts to include the door and airflow unit.

Consumables i.e. LED light bulbs and LED drivers may be purchased through the Boss Design customer services department on 01384 454709.
