

Adlington
Product Data Sheet

Adlington Product Data Sheet

Designed to comply to:

BS EN 5459-2: 2000 +A2: 2008 – Performance requirements for Pedestal Seating for users up to 150kg for up Seating (Office Task - Adlington)

BS EN 1335-2: 2009 – Office furniture – Office work chair – Safety requirements

BS EN 1335-3: 2009 – Office furniture – Office work chair – Test methods

Tested and certified to:

BS EN 5459-2: 2000 – Performance requirements for Pedestal Seating for users up to 150kg for up to 24 hour use.

Manufactured in accordance to:

ISO 14001: 2004 - Environmental Management Systems.

BS EN ISO 9001: 2008 - Quality Management Systems.

Materials:

Seat and back boards produced from laminated plywood with pre-fitted threaded 'T-Nuts' for mounting points. These are covered with CMHR (Combustion Modified High Resilience) flexible foam for comfort and complying with flammability 'Crib 5' requirements.

Upholstery fabrics for seat and back pads are available in a wide range of patterns, colours and weaves. They are produced and supplied at a minimum of 'Crib 5' flame retardancy level; suitable for contract use in public areas.

Back and seat covers produced in precision injection moulded recyclable polypropylene. Structural elements such as back bar and mechanism produced in various pressed mild steel sections for suitable strength and stability.

All metalwork has an epoxy powder coated finish, baked at high temperatures to provide a durable protective finish with excellent adhesion and chemical resistance. This coating has a preferred thickness of no less than 50 microns.

Heritage:

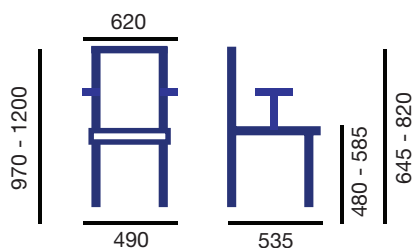

Over thirty years of in-house manufacturing experience of this type of furniture supplied successfully into educational establishments throughout the U.K.

Considerations:

- Available in medium or high back options.
- Standard model can be fitted with a selection of optional fixed or adjustable arms at point of order.
- Supplied with 640mm diameter impact resistant, glass-filled nylon base fitted with twin wheeled castors.
- Mechanism fitted with lever for seat height adjustment and independent hand wheels for back height and rake that can be left in 'free-float'.
- Designed to accommodate users of up to 150kg.

Model Description:

All models.
