

# BRING TECHNOLOGY TO THE BATHROOM

CROSSWATER LAUNCHES **NEW** DIGITAL SHOWER COLLECTION

NEW  
PRODUCT  
LAUNCH

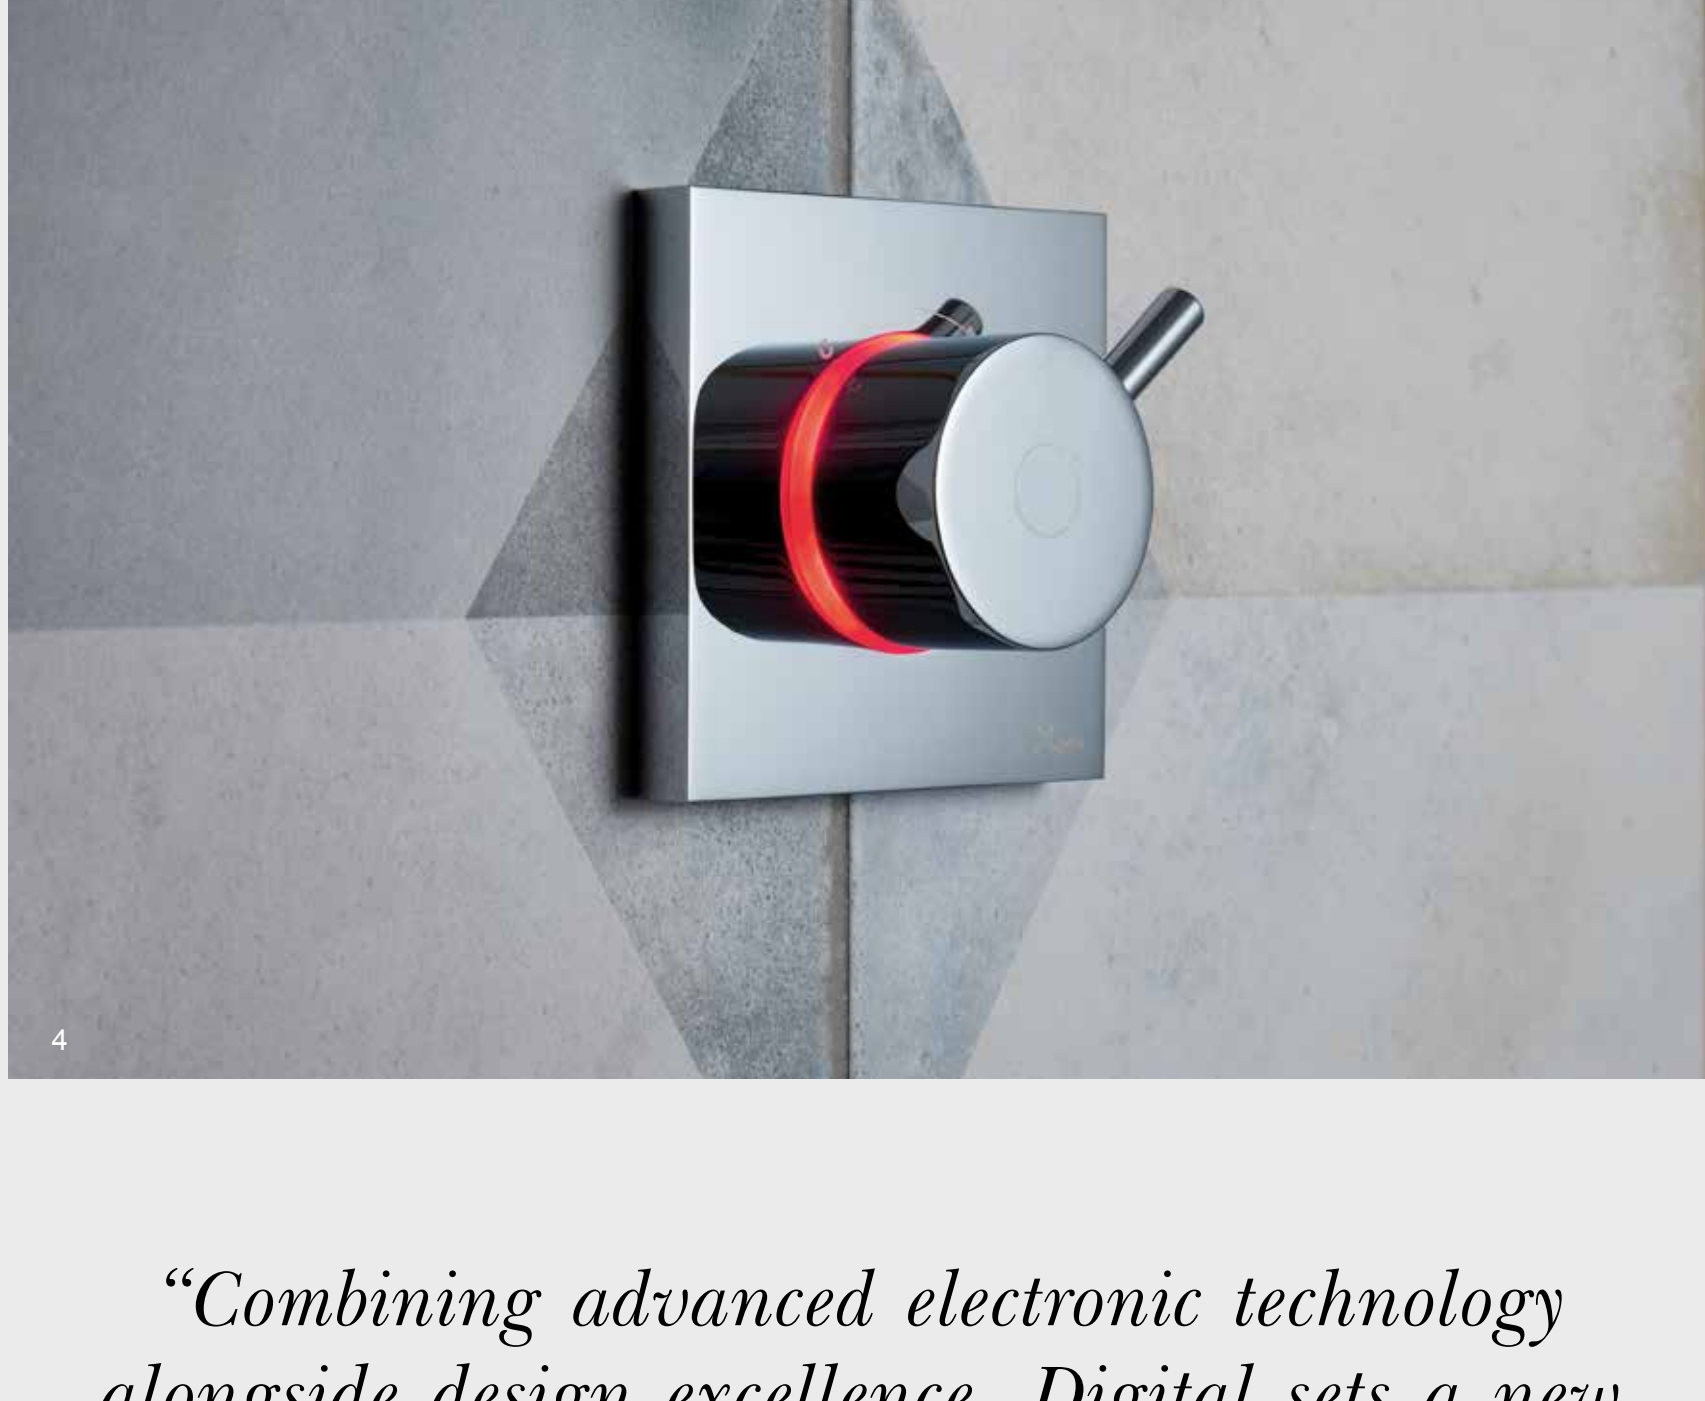

Offering complete control over the bathroom, Crosswater has launched its brand new Digital Shower range. Shown for the first time at Sleep, Crosswater Digital is the first digital brassware that matches the rest of the bathroom and is the latest in automated bathroom technology. Transforming everyday bathing into an extraordinary experience, Digital is a highly responsive, integrated system that allows you to precisely control the flow and temperature of your water at the touch of a button. With compact, low profile controls and cutting-edge operational facilities that allow for remote and multifunctional control, the push fit plumbing and electronics means that Digital is simple and easy to install with minimal structural disturbance.

Created to offer complete water control, Digital is intuitive, high performing and versatile in both function and style. Each individual outlet can be programmed to each user's specific requirements, including temperature, flow and on/off functions. Vivid colour-changing indicators let you know when the water has reached optimum temperature to help avoid uncomfortable hot / cold water surges; when the softly-lit LEDs stop flashing and glow white, the water is perfect for your pre-programmed bathing preference.

Beautifully crafted in polished chrome-plated brass and offered in two distinctive styles. Choose from the contemporary Kai trim featuring angular lines and sleek, fuss-free controls, or for the more traditional Belgravia, which displays classic ceramic indices and elegant period-style profiling. Crosswater's Digital range includes from both high and low-pressure systems, as well as single and dual outlet valve processors for either shower or shower/bath control. An optional control pad is also available, which can be positioned up to 10 m away from the source for a truly remote bathroom experience.

## KAI DIGITAL

*Clean and understated, Kai is perfect for the contemporary bathroom*

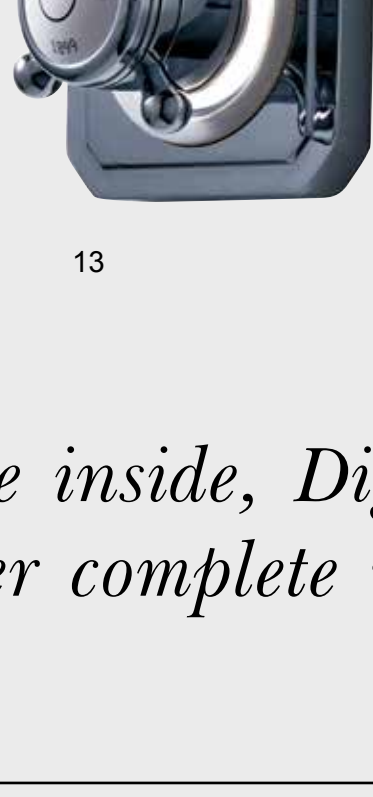

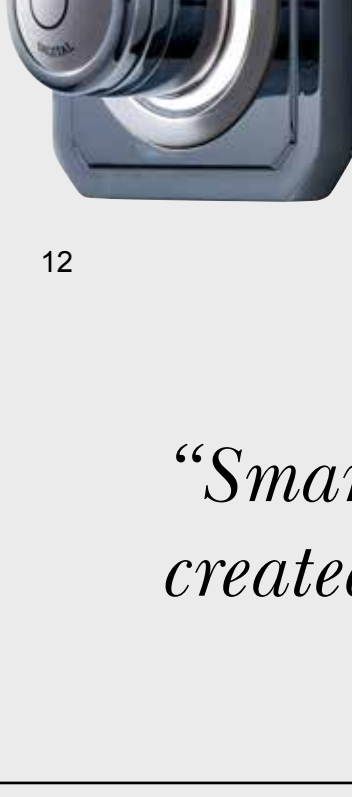

*“Combining advanced electronic technology alongside design excellence, Digital sets a new benchmark in bathroom automation”*

## BELGRAVIA DIGITAL

*Beautifully traditional, Belgravia offers period style with the high-tech functions of Digital*

*“Smart on the inside, Digital has been created to offer complete water control”*

Visit Crosswater at Lake View House in January 2017 for demonstrations of the new Digital range.
