

4100

hand-drawn

for light, medium- and heavy-weight curtains

Strong & slim-looking

4100

hand-drawn strong & slim-looking

The Goelst 4100 profile is the strongest rail in our assortment. Its slim and sleek industrial look makes it fit for many interiors. It can be easily mounted in various ways on a wall, ceiling or hanging free. A very popular track that can be used in a wide variety of situations, such as private homes, but also in office buildings and in the care sector.

- The ideal track for lightweight, medium-heavy or heavy curtains.
- Easy to bend and exceptional quality.
- Can be forward or reverse bent in different radii.
- Compatible with the Goelst Flow System for regularly pleated curtains.
- Silent and smooth running, also round bends.
- Compatible with LRS gliders.

Standard colours

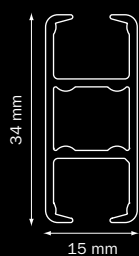

High quality, wear-resistant coating, highly colourfast, UV-resistant.
Other RAL colours & special coatings on request.

R 15 cm

R > 100 cm

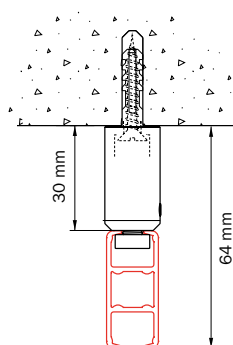

Flow

The Goelst Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.

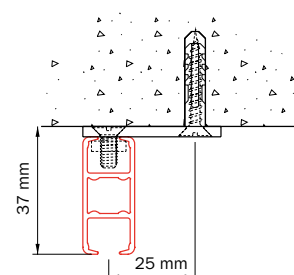

The Flow System can also be used with curved curtain tracks. For further information, see the Flow product data sheet.

Mounting

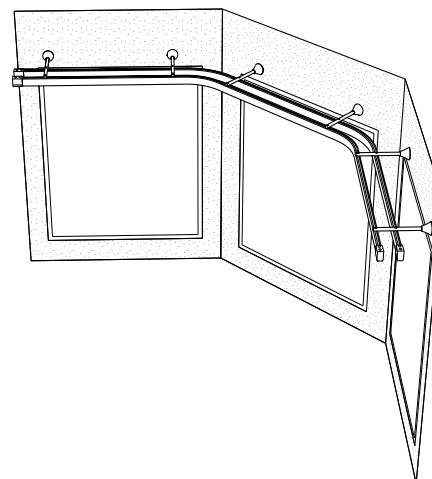

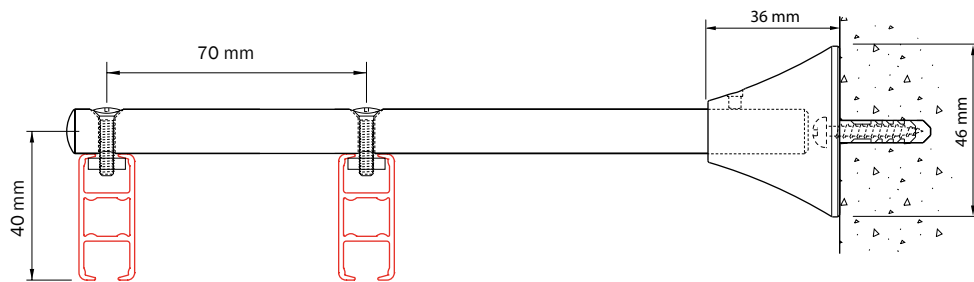

Ceiling mounting with mini-suspension hanger 4254

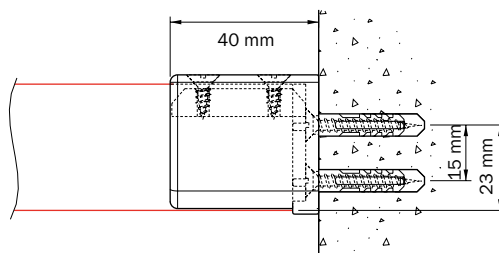

Ceiling mounting with fixing plate 4135

Application example

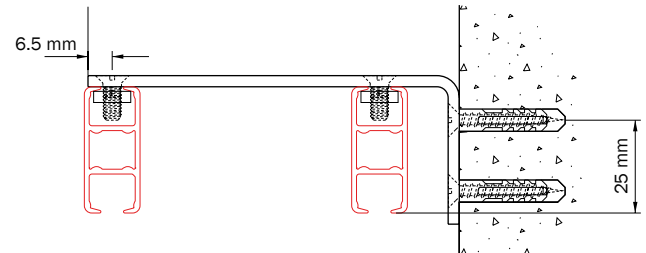

Mounting with adjustable extension bracket

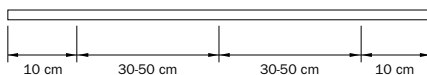

Wall mounting with end bracket 4149

Mounting with extension bracket 4115

Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.

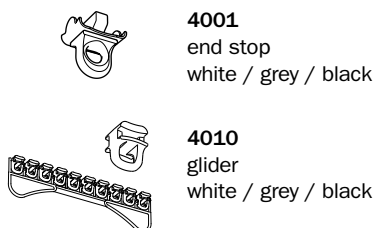

Specification guide

Material

- Aluminium EN AW-6060-T66.
- Anodised in accordance with the Qualanod standard.
- Powder coated in accordance with the Qualicoat standard.
