# Mono Collection Desks

design by Paul Crofts

---

Adaptable, versatile and highly durable, the **Mono Collection Desks** manufactured in solid surface can be handed left or right and feature ergonomically positioned sign-in platforms, space for built-in storage which can be specified in modular elements, and the facility for a fully DDA (Disability Discrimination Act)-compliant recess. The desks can also be backlit and branded to the client's specification.

## Features

- Desk requirements can be specified from the available module options, which are then made into one seamless piece on installation
- Can be personalised using backlit translucent logo or branding
- Backlit translucent patterns
- Lighting integrated into sign in platform
- Solid surface is highly durable and impact resistant
- Easy to clean
- Pen pots, cable ports and storage space
- Seamless repairs, without visible trace
- Efficient lead times
- Range of colour options
