Product Data Sheet

## Move Up Product Data Sheet

### Designed to comply to:

BS EN 1335-2: 2009 - Office furniture

Office work chair – Safety requirements

BS EN 1335-3: 2009 Office furniture – Office work chair

### Test methods Manufactured in accordance to:

ISO 14001: 2004 Environmental Management Systems.

BS EN ISO 9001: 2008 Quality Management Systems.

### Materials:

Seat and back boards produced from laminated plywood with pre-fitted threaded 'T-Nuts' for mounting points. These are covered with CMHR (Combustion Modified High Resilience) flexible foam for comfort and complying with flammability 'Crib 5' requirements. Upholstery fabrics for seat and back pads are available in a wide range of patterns, colours and weaves. They are produced and supplied at a minimum of 'Crib 5' flame retardancy level; suitable for contract use in public areas. Back and seat covers produced in precision injection moulded recyclable polypropylene. Structural elements such as back bar and mechanism produced in various pressed mild steel sections for suitable strength and stability.

All metalwork has an epoxy powder coated finish, baked at high temperatures to provide a durable protective finish with excellent adhesion and chemical resistance. This coating has a preferred thickness of no less than 50 microns.

### Heritage:

Over thirty years of in-house manufacturing experience of this type of furniture supplied successfully into educational establishments throughout the U.K.

### Considerations:

- Upholstered Seat and Back
- Class 4 Gas lift – 25 Stone (150kg)
- Twin wheel castors
