stylish  
compact  
robust | **phase**

Phase is an exciting new concept in power modules from OE electrics, that is ideal for providing convenient but discreet power and data in offices, hotels, restaurants, airports and many other locations.

Compact, robust and unconstrained by convention, you will find Phase with its innovative concealed mounting bracket and through back or through base cable entry options, simple to securely install on desks, tables and soft furnishings.

Phase is available in either white or black with your choice of grey or black socket fascias. The two socket apertures can be configured with a combination of power and data sockets from the extensive OE 42mm modular range.
