Tolv

Tolv is a modular banquette bench range, influenced by our **Fuse** family. The width of each bench can be made to customers specification to ensure an accurate fit against walls or alcoves, using one, simple pricing system.

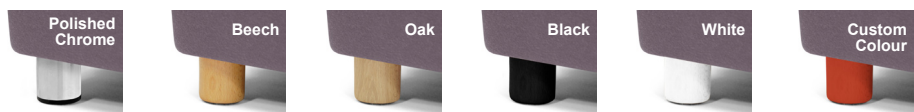

Upholstered wall panels, in custom lengths, can be fixed to walls above Tolv benches to create a higher backed, more built-in aesthetic.

Hardwood and plywood frames with CME foam padding.

Units can be connected with linking mechanism.
