feeling at work

'The high weight capacity, in combination with the large adjustment capabilities, were the decisive factors for us to choose a monitor arm from the Viewmaster collection. In addition, they allow our customers to work ergonomically correct, whilst operating our lifts.'

Hänel, Germany

When you can't afford to compromise

Finest materials
Refined stability
Complete reliability

Viewmaster uses only cutting-edge manufacturing processes and the very best materials to create versatile products that perform in even the toughest circumstances. The finest designs, production standards and aluminium alloy combine to give you what you need: smooth, stable, balanced products that work effortlessly how and when you want them to, and keep on working, no matter what.

High-precision monitor arms engineered for balance yet made from a high-strength ADC-10 aluminium alloy.

Monitor arms

Viewmaster monitor arms refuse to compromise on quality, craftsmanship or ergonomics. The sophisticated parallel mechanism lets you smoothly set the arm to the exact height you want almost effortlessly, and without having to adjust the screen. These are reliable, well-balanced monitor arms that meet the very highest ergonomic standards.
