

Mini Diro

Miniaturisation

The **Mini Diro** range embodies our ongoing quest towards miniaturisation of luminaires. This unobtrusive and extremely petite downlighter strikes a perfect balance between size and luminous flux, resulting in clean sightlines and minimal appearance. The Mini Diro is the ideal solution for projects wherever the luminaire design is not supposed to dominate the interior design.

Mini Dial R

$\phi 75$

BLACK OR
WHITE

Mini Dial S

MINI TIRO.

Range of miniature luminaires

Fully integrated architectural lighting solution

Optimal eye comfort, designed to minimize glare & eyestrain

Full focus on the light instead of the luminaire

Clean sightlines and minimal appearance

Trimless or trim finish

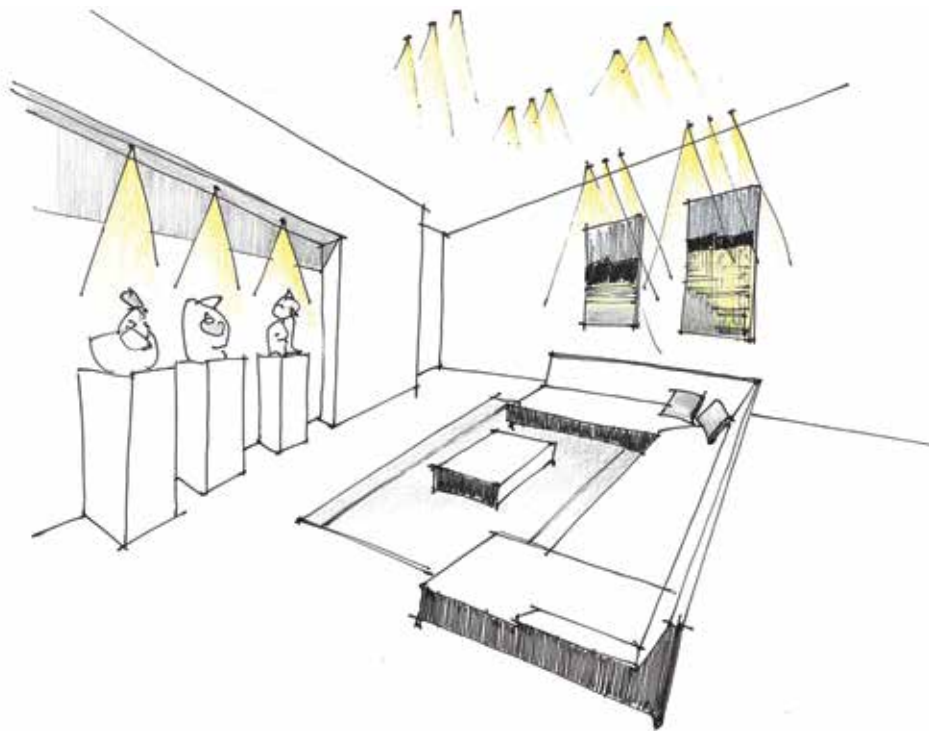

Multiple application and installation options

Mini Diko Trimmer

This 25mm diameter pinhole luminaire with trimless finishing vanishes in its surroundings. The deep recessed positioning of the led guarantees minimal glare.

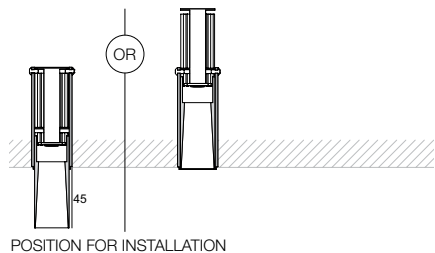

Mini Diko R/S

Round or square luminaire with minimal appearance, available in black or white finish.

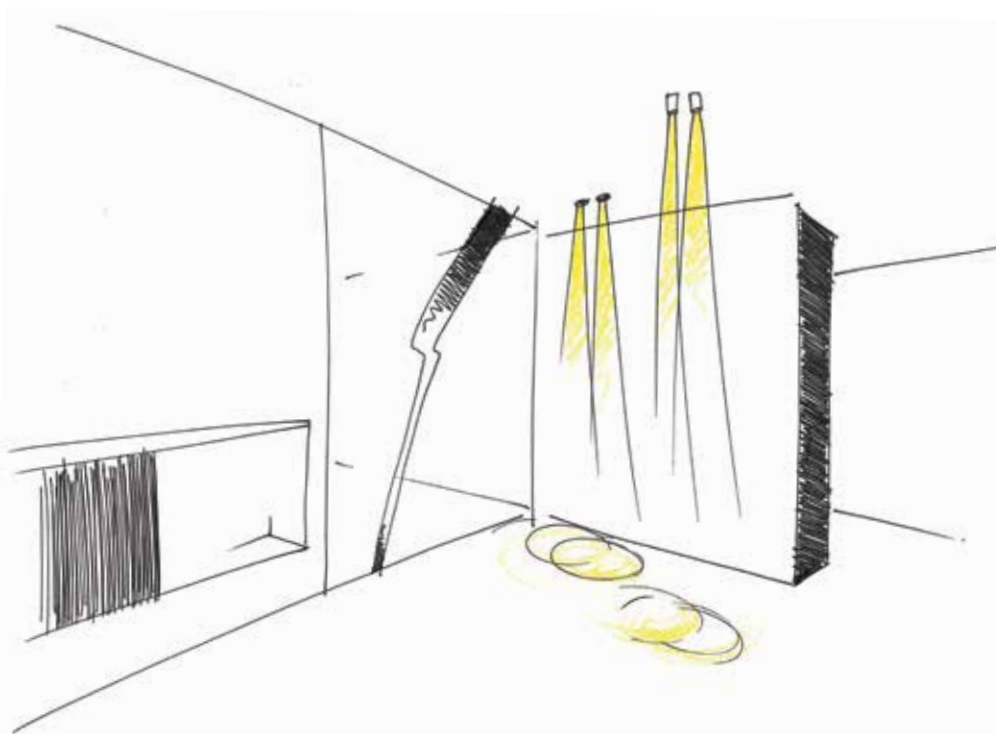

Mini Diro.

A compact tube that
can be completely in
or out of the ceiling.

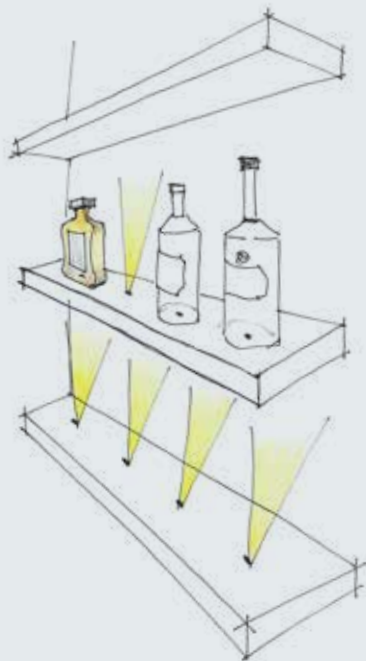

The minimal appearance of the **Mini Diro** range can be complemented with the **Flac** suspension. An extremely flat white disk with an opening in the middle from which the light emanates in a 15° beam. On the top of the disk a LED cluster provides a powerful up-lighting effect.
